Vishnu K M

Full Stack Developer

Trivandrum, Kerala | +91 9605323659 | vishnukmurali96@gmail.com | kmvishnu.in | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience across the entire Software Development Life Cycle (SDLC), building, testing, and deploying scalable web applications and Single Page Applications (SPAs) using MERN & PERN stacks (React.js, Next.js, Node.js, Express.js, PostgreSQL, MongoDB). Experienced in Frontend Architecture, RESTful Microservices Design, ORM integrations, Database Optimization, and DevOps & Cloud Deployments (AWS, CI/CD pipelines). Proven track record of executing JavaScript-to-TypeScript migrations, writing Unit Tests, and remediating web application security vulnerabilities within fast-paced Agile environments.

CORE COMPETENCIES

- Full-Stack & MERN/PERN Development
- Frontend Architecture & Responsive Web Design
- RESTful API & Microservices Architecture
- RDBMS & NoSQL Database Optimization
- Authentication & Authorization (JWT, RBAC)
- Web Application Security & Vulnerability Remediation
- DevOps, CI/CD Pipelines & Cloud Deployment
- TypeScript Migration & Modernization

TECHNICAL SKILLS

Languages : JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL.

Frontend : React.js, Next.js, Redux Toolkit, Context API, React Router, Tailwind CSS, Material UI (MUI), Single Page Applications (SPA), Responsive Web Design (RWD), Cross-Browser Compatibility, SSR / CSR

Backend : Node.js, Express.js, Nest.js, RESTful APIs, Microservices Architecture, Authentication & Authorization, JWT, CORS, Axios

Databases & ORMs : PostgreSQL, MySQL, MSSQL (RDBMS / Relational Databases), MongoDB (No-SQL), Redis, ORMs (Sequelize & Prisma)

DevOps, Cloud & CI/CD : AWS (EC2, S3, RDS), Docker, CI/CD Pipelines, GitHub Actions, PM2, Vercel, Netlify, Render

Testing & Tools : Jest (Unit Testing), Postman, Chrome DevTools, Vite, npm, Antigravity

Version Control & Methodologies: Git/GitHub, Agile / Scrum, SDLC, Code Reviews, System Architecture

WORK EXPERIENCE

Full Stack Developer | **Synergy EduLearn Pvt Ltd** *(via Neuralytica)* | *Mar 2025 – Present*
(Contract via Neuralytica: Mar 2025 – Jun 2025 | Converted Full-Time: Jul 2025 – Present)

- Developing and maintaining a scalable learning platform using React.js, Node.js, Express.js, and PostgreSQL, serving 1,000+ active users across 10+ production-ready modules.
- Architected and integrated Sequelize ORM (Object-Relational Mapping) into core backend services, eliminating raw SQL complexity by 80% and improving codebase maintainability.
- Spearheaded full codebase migration from JavaScript to TypeScript (90%+ coverage), reducing production runtime errors by 30–40%.
- Optimized Relational Database (RDBMS) performance by ~25% through PostgreSQL query tuning, connection pooling, and composite indexing.
- Enhanced frontend performance and Core Web Vitals, reducing page load time by ~20% through code splitting, lazy loading, and memoization across reusable components.

- Collaborated in a 5+ engineer Agile team, using CI/CD pipelines and AWS-hosted infrastructure to enable continuous release cycles and high-quality code delivery.

Frontend Developer | **Netroxe IT Solutions, Trivandrum, Kerala** | *Nov 2024 – Jan 2025*

- Engineered interactive UI components using React.js and Axios for RESTful API integration and client-side state handling.
- Designed and built 15+ reusable UI components with Tailwind CSS, reducing development turnaround by 30%.
- Implemented Responsive Web Design (RWD) and ensured Cross-Browser Compatibility across 5+ device viewports and major web browsers.

Full Stack Developer | **UST, Trivandrum, Kerala** | *Nov 2021 – Nov 2024*

- Contributed to the enterprise AppSec platform, ensuring strict compliance with web application security standards and enterprise guidelines.
- Built scalable frontend (React.js) and backend (Node.js/Express) microservices managing 1,000+ daily API requests.
- Designed and optimized relational databases (MySQL, MSSQL), cutting complex query execution times by ~35%.
- Handled DevOps and cloud maintenance on AWS EC2, achieving 99.9% uptime using PM2 process management and AWS S3 for secure, GB-scale file storage.
- Drove Web Application Security & Vulnerability Remediation, identifying and resolving 50+ application vulnerabilities (XSS, CSRF, auth bypasses, and bugs).
- Actively participated in 20+ Agile/Scrum sprint cycles, utilizing Git/GitHub for Version Control and Jira for issue tracking.

Personal & Freelance Projects

Selected projects are listed below. Additional deployments and repositories are available in my portfolio (kmvishnu.in).

BookMyStay – Multi-Portal Hotel Management System | *React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL*

- Built a multi-tenant booking system featuring client, admin, and property owner portals with robust Role-Based Access Control (RBAC).
- Designed scalable RESTful APIs, complex PostgreSQL relational schemas, and transaction management for real-time inventory tracking.
  Live apps : *Customer Portal* | *Admin Portal* | *Owner Portal*

Nexus Careers – Full-Stack Job Discovery Platform | *React.js, Tailwind, Redux Toolkit, Node.js, Prisma, PostgreSQL*

- Architected a role-based job portal with Recruiter and Candidate workflows, leveraging Redux Toolkit
- Implemented secure Authentication & Authorization using HTTP-only cookies with JWT access/refresh tokens alongside server-side pagination and search filters.
  Live app : *Nexus Careers*

Freelance Web Development (Various Clients) | *Next.js, Tailwind CSS, JavaScript*

- Delivered client web applications prioritizing Core Web Vitals, server-side rendering (SSR), search engine optimization (SEO), and continuous deployment pipelines.

EDUCATION

B Tech in Computer Science & Engineering

Rajiv Gandhi Institute of Technology, Government Engineering College, Kottayam | 2021

Diploma in Computer Technology

Sreerama Government Polytechnic College, Thriprayar | 2017

CERTIFICATIONS & TRAINING

- Microsoft Certified: Azure Fundamentals (AZ 900)
- Certificate in Android Programming – STED Council (Sep 2017 – Mar 2018)
